

FOREWORD

Dear colleagues,

Welcome to the second 2026 edition of the SGroup Newsletter. As summer unfolds across our campuses, it offers a valuable moment to reflect on recent achievements and look ahead to new opportunities for collaboration. In this edition, we share updates on key activities and highlight opportunities to collaborate and engage within the SGroup community.

We would also like to remind you that the SGroup Newsletter is not only a source of information on events, opportunities, and developments within our community, but also a platform for members to share their upcoming activities. We therefore encourage you to share this edition with colleagues and departments within your institution who may benefit from its content. We also warmly invite you to contribute opportunities and events open to participation from other SGroup members to strengthen collaboration and knowledge exchange across the community.

The next edition will be published in September 2026. To ensure that your information is featured, please submit invitations open to SGroup members via this form [here](#) by **1 September 2026**. Eligible submissions may include conferences, seminars, winter schools, and staff weeks for which registration remains open after 1 October 2026.

Thank you for your continued engagement with the SGroup community. We wish you a restful summer.
